Nature Of Opinion

Docket Number: E-01345A-16-0036

Docket Position: Against

We moved to Yuma August 2015 after roving for 12 years. We are retired and are on a fixed income (retirement & social security) We manage using utilities early in the AM or evening after 7PM. We paid one month 334.00 for electric. This increase may not seem like a lot to some but over the period of a year it does add up. I can only ask that you please not increase to where it puts a bind on the senior citizens and even the snowbirds. We like Yuma and I hate when people start saying they are going to stop coming here. We like the small town and really don't want to look or even think about moving. It's bad enough all the problems going on with Farwest. We don't need APS to raise rates also. Thank you

I just heard about this meeting for comments coming up this next Monday. I find it really strange that you schedule it when most of snow birds have already left for our homes in the north. I guess you thought it would be more favorable if you dont listen to seniors who are on fixed incomes. If you were really interested in what we think then you would have had this meeting in Jan. or Feb. while all of us are here. But it is already set up for now. I am against such an increase as we are so tapped out with raises in taxes ever year yet our home values are not rising. And with those sewer charges going up and up. Then you have the Rural Metro charges. Raises in my house insurance which amounts around \$150 a year. Good grief will it ever stop. This decision will hurt us and also those families who are raising their kids here. Please stop this raise if anyway possible. Thanks Jerry McGillivray
